

# 10m Joining Tape for Artificial Grass

£8.95

## Product Images

## Description

Made of rot proof geo-textile fabric. When used with [Aquabond Adhesive](#) it forms a strong bond between sections of artificial grass carpets used in surfacing of sports areas.

On joins longer than 20m it is far more economical to use our [Multipurpose Adhesive](#).

Please note colour may vary from image shown.

# Additional Information
