Description

The Original and Official AstroTurf® Dirt Stopper Mats. These mats are ideal for doorways, outdoors and inside the home. They offer a simple solution to dragging muddy boots inside. They can even be laid directly on top of your artificial grass to prevent wear by your back or even front door. The built in grass blades are tough which makes them ideal for pulling bits of dried and wet dirt from the bottom of your boots. The Long pile not only means they can reach right into the tread of your boots but can store 3-4 times more dirt than a standard door mat.
